

FLC-D_BOX

概述：

FLC-D_BOX智能车载终端，支持GSM/GPRS 4频点和GNSS，配有车身总线结构与诊断接口。通过应用软件和数据服务平台，能提供车辆实时位置与状态信息，实现一键导航与对车况的监控与故障检测，提供驾驶员操作行为分析，并给出优化建议等。适用于个人或企业（保险、汽车租赁等需要智能化车队管理的）车辆远程管理。

特点：

- 尺寸：95mm*42.54mm*15.5mm
- 工作温度：45°C~85°C

功能：

- 支持车辆远程定位，提供实时位置及状态，降低被盗风险。
- 支持车辆远程导航，提供一键导航功能，帮助车主快速寻找并导航至目的地。
- 支持车辆故障检测，提供一键自助检测功能，对车辆状态进行打分评级，直观体现车辆状态，及时提醒故障、提醒处理。
- 支持车况监控，提供定期车况检测功能，保障用户出行安全。
- 自带G-sensor，在碰撞及拖车时会报警。
- 支持车辆行驶数据统计汇总，提供汽车使用与保养建议。
- 支持车辆违章信息查询，帮助车主及时查询并处理交通违章。
- 支持车辆轨迹回看，查看汽车的历史行程，并提供行程对应位置点驾驶行为的标注，如急刹车、急转弯等。
- 支持驾驶行为分析，通过智能分析，对驾驶行为为评分，并提供定制化的车险计划，帮助养成良好驾驶习惯。

应用：

- 个人、企业车辆及车队管理

Description:

FLC-D_BOX intelligent vehicle terminal, supports GSM/GPRS 4 frequency point, equips with body bus structure and diagnostic interfaces. Through the use of software and data services platform, it can provide the real-time location and statues for the vehicle, achieve I-call and vehicle monitoring and fault detection. It also offers driver operating analyzing and give some useful recommendations to driver. D_box is suitable for individuals or company (Insurance, Car rental etc.) vehicle remote management.

Feature:

- Dimension: 95mm*42.54mm*15.5mm
- Operating temparture : 40°C~85°C

Function:

- Support vehicle remote location, which can provide real-time location and status of vehicle, reducing the risk of being theft
- Support vehicle remote navigation, which can offer I-call, helping owners to quickly find and navigate to the destination
- Support vehicle fault detection, which can provide one-click automatic testing and mark for car statue, directly shows the car information
- Support vehicle monitoring, which provide the function of vehicle testing, ensure the travel safety
- Equip with G-sensor, which would alarm at the time of collision
- Support traffic data summarizing and offer some suggestions about maintaining and use
- Support vehicle violation information inquiring, which help driver check and address traffic violation in time
- Support wheel path reviewing, which can check the historical journey of car and shows the corresponding driving behavior, such as take a sudden turn and slam on the brakes...
- Support driving behavior analysis and scoring on driving behavior through intelligent analysis, provides a customized car insurance plan, help to form good driving habits.
